

First steps

ISIS = Moodle

ISIS designates a learning management system implemented at TUB for eLearning purposes. ISIS is based on the open source software [Moodle](#). ISIS/moodle is a fast and easy entry point for students to access your learning materials. In addition to its basic functions, moodle provides you with tools to enable [communication](#), [collaboration](#) and [assignments](#).

- **Link:** <https://isis.tu-berlin.de>
- **Course creators:** current TUB login-data and course creation privileges required
- **Participants:** current TUB login-data and (if need be) your [enrolment_key](#) to access a course (enrolment keys are set by trainers) required
- **Number of participants:** unlimited

Course creation

To obtain course creator privileges (in moodle: [course creator](#)), please take the following steps:

1. [Apply for course creator privileges](#)
2. [Create a course environment](#)
3. [Assign a Teacher](#)
4. [Teacher quick guide: Course set up, course enrolment and restricting access](#)

Application scenarios

Moodle offers various activities for **implementation in higher education**. You can combine these in accordance with your didactic intentions.

- [adapt a user-friendly approach](#): please consider especially the section on *accessibility*.
- [administer participants](#)
- [assign groups](#)

Apart from compiling [resources](#) and [activities](#) moodle may also improve a teacher's **organizational abilities**. Available tools facilitate the assignment of presentation topics or [grouping users](#). To achieve this, please implement the activities [choice](#), [group choice](#) or [gerechte Verteilung \(German\)](#).
